

Watermill Press Ltd are dedicated and committed to becoming the customers' first choice partner for product identification services.

We are fully committed to comply with the requirements of the ISO 9001, ISO14001, ISO45001, PEFC, FSC and BRCIOP Standards and implement as appropriate continuous improvement actions.

This policy provides a framework for establishing and reviewing our objectives. Our current objectives relate to business performance and quality of service. The company's VVG is well known to all employees and as a company we all strive to achieve these every day. Objectives and goals are reviewed on a continual basis by the board and on a 6 monthly basis with employees and their managers.

These objectives are used as a basis to measure our performance ensuring compliance with customer's specified requirements and to continually improve the effectiveness of our Management System. A summary of these objectives and their performance is discussed during management review on an annual basis.

This policy commits us to:

- Comply with all applicable environmental and health & safety legislation and other requirements as necessary and to eliminate and reduce hazards wherever possible.
- Produce safe and legally compliant products to the quality specified by various industry standards.
- Supply the necessary training in relation to quality, environmental and health & safety to be applied to the workplace.
- Monitor all business activities and their resource usage to identify opportunities to prevent pollution, minimise waste; accidents and near misses.
- The continual improvement of our quality, environmental and health & safety performance and the prevention of pollution in a safe and healthy work environment. To do this we will ensure that we consult with our employees by discussing any changes in relation to procedures and policies wherever reasonably practicable.

The responsibility for the implementation of this policy rests with the Commercial Director. He acts as the Management Representative overseeing all matters relating to the Management System Standards.

All Directors and employees are responsible for the work they undertake and for complying with QEH&S procedures. It is their responsibility to identify and report, where appropriate issues and/or opportunities for improvement to senior management through the appropriate meeting.

Full facilities are afforded to customer's representatives and approving organisations in carrying out assessments of the Management Systems.

This policy reflects the current business structure, size and operation. This policy is available to our customers, subcontractors and to the general public on request. It will be reviewed annually for continuing suitability during formal management reviews.
